PROFILE

Highly efficient and self-motivated Full Stack Web Developer who enjoys finding elegant solutions to non-trivial challenges. Focused on a goal and driven by visual sophistication and laser-sharp precision, I take pride in every completed project and never stop learning.

EMPLOYMENT HISTORY

Python Developer at KISS Software, Kyiv

January 2023 — December 2023

Crypto Processing with **OKX** **asyncio** and **fastapi** and **MongoDB** as database, accept and send crypto assets

Python Developer at French Constraction CRM, Kraków

June 2020 — December 2022

CRM for construction and repair that allows you to select materials and create an estimate. All the functionality was developed in **Python FastAPI** by a team of 5 people. The first version of the application I developed myself, using **Vue JS**.

- Leading the team with ingenuity and leadership skills
- Working in accordance with company's values to achieve future goals

Python Developer, BA at pdfFiller - airSlate, Kyiv

January 2018 — May 2020

My responsibilities include analyzing project data and preparing a backlog for the team in accordance with the data received. I used **Pandas** for data collection and **Elasticsearch** and **MySQL** for data sampling.

- Cooperating with management and colleagues to achieve goals
- Conducting thorough research for planning purposes
- Showing flexibility and striving to succeed

SIDE PROJECTS

Python Developer, Kyiv

September 2022 — January 2023

Building a **FastAPI** based backend with **asyncio** and front-end with **React**

- Expressing goodwill, showing myself as a hard-working and efficient employee.

Python Developer, Boston

January 2022 — August 2022

Creating of a mechanism for forecasting oil production. I've been using **Pandas** and **Numpy** in this project.

- Organizing and prioritizing for the timely and effective implementation of tasks

Python Developer, Antalya

June 2021 — December 2021

Creating a backend for an NFT game using **FastAPI** and **pytest**, creating a marketplace and test suites for this project.

- Independent and well-coordinated work in a team to solve issues

Python Developer, Tel Aviv

January 2021 — June 2021

Creating an integration with NetSuite <https://github.com/dokka-ai/netsuite-sdk-py2.7> converting SDK from python3 to python2 using **Flask**, **Ayncio**, **Python**, and **PostgreSQL**.

- Remaining committed to new technologies and the latest digital marketing concepts
- Tracking, analyzing, and reporting on the effectiveness of digital marketing campaigns

EDUCATION

Master's degree, Renewable and Alternative Energy Sources, National Technical University of Ukraine 'Kyiv Polytechnic Institute', Kyiv

September 2003 — June 2009

Student, FTL, Kherson

September 2000 — May 2003

I was studying physics, mathematics and programming

COURSES

Data science, Skillfactory

December 2019 — December 2020

Mongodb Tradecraft, Mongodb

April 2022 — June 2022
